### CLOUD SERVICES
- Cloud Security Visibility Assessment
- Cloud Security Strategy and Architecture
- Cloud Security Reference Architecture
- Cloud Migration
- Cloud Access Security Broker (CASB)
- Micro-segmentation
- Containerization and Container Security
- Automation and Orchestration
- Infrastructure as Code (IaC)
- Serverless Architecture & Implementation
- Encryption Key Management
- Cloud Security Solution Integration

### TECHNICAL SERVICES
- Technology Benefits Analysis
- Security Technology Design
- Managed Proof of Concept
- Basic Technology Implementation
- Premium Technology Integration
- Managed Proof of Value
- Technology Effectiveness Validation
- Problem Resolution Management
- Security Technology Optimization
- Countermeasures Survey

### RISK MANAGEMENT SERVICES
- Vulnerability Assessments and/or Penetration Testing Services (On Prem & Cloud)
  - External, Internal, and Wireless Networks
  - Web Applications / Mobile Applications / APIs
- Social Engineering Assessments
  - Phishing / Physical / Pretexting Exercises
- Firewall Configuration Review/Assessments
- Security Maturity Analysis
  - CIS 18 • NIST CSF
- Policy and Procedure Assessments/Development
- Gap Assessments
  - HIPAA, GDPR, CCPA, SOC 1&2, PCI
- PCI Services
  - QSA Compliance Services (ROC, SAQ)
  - PCI Workshops
  - PCI ASV Vulnerability Assessment
  - PCI Penetration Testing Services
- 3rd Party Vendor Management

### RESIDENT RESOURCES PROGRAM
- Solutions to bridge short, medium and long term cybersecurity talent gaps

### VULNERABILITY & PATCH MANAGEMENT
- Consulting Services
- Managed Services
- Advisory Services

**AccessIT Group is Your Partner in Cybersecurity**

**PROFESSIONAL SERVICES**

---

**CLOUD NATIVE SECURITY CO-MANAGED SERVICE**
- Check Point CloudGuard Cloud Security
- Posture Management
- IAM Safety within Check Point Cloud Native Solutions
From your local network to the cloud, AccessIT Group has you covered. Our team of knowledgeable security experts recommend and implement the most appropriate technologies from the industry’s most respected and effective technology partners.

**Your Single Source for Cybersecurity Solutions**

From your local network to the cloud, AccessIT Group has you covered. Our team of knowledgeable security experts recommend and implement the most appropriate technologies from the industry’s most respected and effective technology partners.

**FEATURED TECHNOLOGY PARTNERS**

Our highly skilled engineers are certified and authorized to install, deploy and optimize these solutions:

- **Check Point Software Technologies LTD**
  - Check Point is a leading provider of cyber security solutions to enterprises and governments. Its solutions protect customers from 5th-generation cyber-attacks with an industry-leading catch rate.

- **F5 Networks**
  - With 20+ years of application service experience, F5 provides the broadest set of services and security for enterprise-grade apps, whether on-premises or across any multi-cloud environment.

- **Tenable**
  - Tenable is the Cyber Exposure company. As the creator of Nessus, Tenable extended its expertise in vulnerabilities to deliver the world's first platform to see and secure any digital asset on any computing platform.

- **Gigamon**
  - Gigamon provides network visibility and analytics on all traffic across physical, virtual and cloud infrastructure to solve for critical security and performance needs—freeing you to drive digital innovation.

- **Forescout**
  - Forescout’s unified security platform enables enterprises and government agencies to gain complete situational awareness of their extended enterprise environments and orchestrate actions to reduce cyber and operational risk.

- **Netskope**
  - Netskope delivers data-centric security. The Netskope security cloud provides unrivaled visibility and real-time data and threat protection when accessing cloud services, websites, and private apps from anywhere, on any device.

- **CyberArk**
  - CyberArk, the #1 provider of privileged access security, protects data, infrastructure and assets across the enterprise, in the cloud and throughout the DevOps pipeline.

- **Tufin**
  - Tufin’s network security automation enables enterprises to implement changes in minutes instead of days, while improving their security posture and business agility.

- **Other Partners**
  - Other featured technology partners include OneTrust, Proofpoint, LogRhythm, Thales, McAfee, CrowdStrike, Varonis, FireEye, Contrast Security, Okta, Arctic Wolf, Checkmarx, Zscaler, and Demisto.
